## PROFILE

---

Front-End Developer with over one year of experience building and leading modern web applications in both startup and freelance environments. Skilled in JavaScript frameworks such as React, AngularJS, and Next.js. Adept at designing scalable, accessible, and user-friendly interfaces with a passion for learning and implementing new technologies.

## EXPERIENCE

---

### Intern – Software Development

Interphase (Lebanon, Tripoli)

Oct 2024 - Dec 2024

- Learned AngularJS and applied system design concepts such as microservices.
- Collaborated in an Agile team environment, participating in sprints and daily stand-ups.

### Lead Frontend Developer – Cod&Ex Team

Code&Ex (Lebanon, Tripoli)

Dec 2024 – Mar 2025

- Led the frontend development of a delivery system project using Next.js.
- Coordinated with team members to ensure timely delivery of features and UI components.

### Freelance Web Developer

Amlaki (Saudi)

Feb 2025 – Apr 2025

- Developed a real estate website using Livewire, alpinejs and tailwindcss for a local client.
- Designed user-friendly interfaces and implemented property listing, filtering, and admin dashboard features.

## EDUCATION

---

### Arab Open University (AOU), Lebanon

Computer Science Coursework (Completed 3 Years)

2021 – 2024

Relevant Courses: Data Structures, Web Development.

## PROJECTS

---

- PitchStartup – A sleek startup showcase site built with Next.js, Tailwind CSS, and Sanity CMS. Features dynamic routing, markdown-based pitch content, and real-time CMS updates. [pitchstartup.vercel.app](https://pitchstartup.vercel.app)
- Exclusive – E-commerce Web App : An e-commerce platform built with Next.js, Firebase, and Tailwind CSS, featuring user authentication, product management, cart system, and real-time data syncing with Firestore. [exclusive-web.vercel.app](https://exclusive-web.vercel.app)
- Crypto App - CryptoVerse : A real-time cryptocurrency tracker built using React and CryptoAPI (via RapidAPI) to display market data for various cryptocurrencies. [crypto-app-murex-iota.vercel.app](https://crypto-app-murex-iota.vercel.app)
